

HEALTHY FINANCIALS >> FOCUS ON YOUR MISSION

If your organization is like most nonprofits, you want to focus your energy on supporting your mission and running programs that impact people's lives. That is as it should be, but managing the finances of your organization often takes up precious staff, leadership, and volunteer time.

Billing, collecting and reporting your financials has become frustrating and fragmented. Is there a way to simplify your system? Public scrutiny of nonprofit financials

continues to increase with donors asking to see how you spent every penny. Can you show them?

Billhighway is an innovative, web-based finance and accounting system that will increase your financial health, decrease your risk of fraud, and ultimately make managing your organization's finances more efficient so that you can direct more resources toward your mission.

Streamlines your accounting processes

Billhighway is the first cloud-based system that combines payment processing, online banking and accounting into one system, allowing for straight-through financial processing. We consolidate your accountant, banker, budgeter and bill payer into one complete product. This way, all your organization's dollars can be safely accounted for and important organizational decisions can be made based on accurate financial data.

HERE'S HOW BILLHIGHWAY CAN DIRECTLY IMPROVE YOUR NONPROFIT'S FINANCIAL PERFORMANCE:

Collection of increased levels of payments/cash >> Additional cash/revenue available

Accelerated timing of collection >> Improved cash velocity

Accelerated recognition of payments/cash in accounting system >> Real time knowledge, minimal reconciliation

Increased levels of available cash, leading to improved cash management/treasury functions >> Lower working capital costs

Better information available for reporting to management and external entities (e.g., tax returns) >> Improved accuracy and less complexity and administration

Sophisticated, easy-to-use and cost-effective

Billhighway is designed to be user friendly for non-finance experts and still provide the sophisticated levels of reporting required by larger organizations. And because we are cloud based, there are no upfront costs. Once Billhighway is up and running, a typical nonprofit can expect to see a return on investment in less than 12 months and a 5-10 percent increase in cash. We also respect your investment in existing technology. We work with more than 15 integration partners in database and membership management, payroll, banking, and financial systems of record to optimize your system – saving you time and money.

Security is our priority, too

Ensuring that your data is secure and properly protected is one of our highest priorities. Billhighway's security protocols not only safeguard your financial systems but also provide peace of mind to volunteers and staff by reducing the risk of fraud. Every Billhighway implementation is backed by the industry's leading safety and security measures, and includes role-based, access level security.

Our people are here for your people

Billhighway is proud to have retained 100 percent of our clients in our more than 11 years in business. That loyalty speaks both to the financial benefits our clients have seen and to the level of importance we place on customer support. From a dedicated implementation team that helps ensure a smooth transition, to personalized training for your staff, Billhighway is by your side every step of the way. The support team in our Michigan headquarters is only a phone call away and you can access help 24 hours a day, 7 days a week through our online support center.

“ We’ve turned an average annual net loss of one million dollars into an annual net gain of one million dollars. ”

Phyllis Grissom,
Director, Tri Delta Fraternity

BILLHIGHWAY SOFTWARE >>> BANKABLE TIME AND MONEY

With the easy-to-use financial tools Billhighway puts at your fingertips, you can turn your accounting system into a well-oiled machine that makes every dollar count.

As a single, integrated platform, the Billhighway system enables straight-through processing of all

financial aspects of a transaction. For your organization this means significant reductions in the time lost on inefficient processes, and better data for tactical, operational, and strategic decision-making.

It all begins with your customized Billhighway dashboard.

Group finances made easy
billhighwaySM

Payment Processing

Offers donors or members multiple ways to make a donation or pay dues – over 50 percent of invoices sent via Billhighway are paid within 7 days; funds post to your bank account within 1-2 business days; easily accommodates reoccurring and installment payment options.

Accounting System of Record

Configured to match your nonprofit’s account structures; meets Generally Accepted Accounting Principles (GAAP) to enable successful annual audits; offers tools for budgeting and planning.

Cash Management and Disbursement

Consolidates multiple local bank accounts into a single physical Billhighway account; allows funds to be routed directly to cash accounts; creates separate accounts for national and

local revenue centers; users can create and send checks to external vendors.

Bank Reconciliation

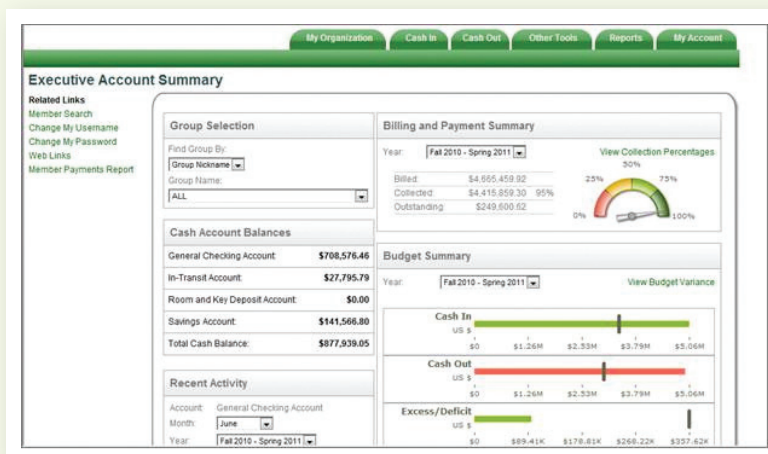

Saves time by eliminating the need for account reconciliation; transactions dovetail with your banking system on a real-time basis; Billhighway team reviews, manages and reconciles on a daily basis.

Reporting

Robust reporting features allow you to generate real-time reports; prepares month-end, year-end and tax filing documents instantly (e.g., income statement and balance sheet for Form 990).

Donor and Member Management

Seamlessly sync data from other CRMs to import and update donor or member data; easily create invoices.
